## LIBRARIAN'S CORNER: DID YOU KNOW?

When you borrow certain books from the MERI Library, loans are automatically renewed for up to two years. This means that you can keep the books out for as long as you need them. You will only be asked to return the book if another person places a request for it. This does not apply to Interlibrary Loans, Reference books, or some high priority archival materials.

If you are an employee of the NJMC your name can be added to a route list for current periodicals received at the library. Once your name is added to the route list for a periodical title, each current issue will be sent to your office as soon as it is in-processed at the library, or as soon as possible depending on the number of people on the route list.

An introduction to library services, research and bibliographic instruction will be offered through the MERI Library. Each orientation will cover topics such as: using the JerseyCat Interlibrary Loan System, accessing and using the Digital Meadowlands online databases, using the MERI Library online catalog, using print and online tools for doing research, as well as an introduction to the library's archival and general collection. These orientation sessions will be held on Wednesday afternoons from 2:30 to 3:30 beginning on October 12, 2005. Each session may be subject to cancellation or rescheduling. Contact the MERI Library for registration and additional information.

Call, e-mail or visit the library if you have questions about any of these services.

## BOOKS IN VIEW

Michael Lapolla and Thomas A. Suszka's **The New Jersey Turnpike** (2005), is a recent publication of Arcadia Press's Images of America collection. It contains photographs of the construction of the Turnpike, including the southern section of the Meadowlands, particularly the viaduct at Laurel Hill and the bridges over the Passaic and Hackensack Rivers.

Tony Hiss and Christopher Meier's **H2O: Highlands to Ocean** (2005), published by the Geraldine R. Dodge Foundation, describes itself as "A First Close Look at the Outstanding Landscapes and Waterscapes of the New York/New Jersey Metropolitan Area." It also contains a brief description of the Meadowlands and the NJMC.

**Field Notes: The Hackensack Meadowlands Issue** (December 2002), published by the New Jersey Field Office, U.S. Fish and Wildlife Service, contains 18 full color articles focusing on the Hackensack Meadowlands. Article topics range from management and planning to remote sensing and environmental science.

If you would like to contribute brief book reviews to be included in future issues of this newsletter, contact the MERI Library for more information.
